

Jeffersontown/Chenoweth Run – XL Pilot Project Stakeholder Meeting Summary

Date: April 28, 2003 (4:00 pm @ Jeffersontown Public Library)

Attendees: Attached

Summary Notes prepared by: Sharon Worley

The attached presentation “PROJECT XL 2002 ANNUAL REPORT” was presented by Sharon Worley. Brief comments on each of the Supplemental Environmental Projects were made by representatives of each of the projects. The following is a general summary of key discussion topics. (It is not intended that every comment or suggestion is necessarily captured herein.)

Richard Meisenhelder of Kentucky Pollution Prevention Center presented general information regarding the ongoing P2 audits. Preliminary results indicate that over \$40,000 could be saved and several pounds of Pollutants of Concern reduced. He also discussed the Mercury reduction grant. They are working to promote a mercury thermometer exchange and to reduce mercury and silver discharges from dental offices.

It was suggested that US Fish and Wildlife may be willing to assist with tree plantings along the stream corridor in order to restore riparian zones. Seed money might be eligible for 75% grant reimbursement.

It was also suggested that further efforts be made to encourage LWC to further control Lead and Copper in drinking water.

The question was raised regarding how the available money will be distributed amongst the proposed Supplemental Environmental Projects. This process will be further refined in the future.

It was agreed that the upcoming Jtown Gaslight Festival (September 19-21, 2003) would be a good opportunity to deliver a simple pollution prevention message to the local residents. Educational information regarding Non-point Source P2 could also be included.

Several stakeholders will get back together for review of project direction and for planning how to effectively share information with the public.

Presentations of “Certificates of Appreciation” were presented to representatives of participating industries. (See picture.)

Jeffersontown/Chenoweth Run – XL Pilot Project Stakeholder Meeting

List of Attendees – April 28, 2003

1. Jeff Frank, Future Fund
2. Teena Halbig, Floyds Fork Environmental Association (FFEA)
3. Bruce Scott, KY Waterways Alliance
4. Tim Piero, University of Louisville KY Pollution Prevention Center (KPPC)
5. Richard Meisenhelder, KPPC
